

REETHU JUSTIN

SOFTWARE ENGINEER · REACT / FULL-STACK DEVELOPER

Kochi, Kerala, India | +91 75108 01892 | reethujustin143@gmail.com | linkedin.com/in/reethu-justin | github.com/REETHU-JUSTIN | reethu-justin.vercel.app

PROFESSIONAL SUMMARY

Software Engineer with 3 years of experience building responsive web interfaces with React.js and JavaScript and validating enterprise applications through full-cycle manual functional and regression testing, including the INVOQ DNCR compliance platform across 18+ modules. Skilled in HTML5, CSS3, Node.js, Express.js, MongoDB, REST API integration, and Git/GitHub, with hands-on full-stack project work covering JWT authentication and CRUD operations. Strong collaborator across cross-functional teams with a track record of delivering accessible UI, resolving 20+ defects, and supporting stable, high-quality releases.

TECHNICAL SKILLS

Languages	JavaScript (ES6+), HTML5, CSS3, SQL
Frontend	React.js, React Router, Responsive Design, Accessible UI, DOM Manipulation
Backend	Node.js, Express.js, REST APIs, JWT Authentication, CRUD Operations
Database	MongoDB, PostgreSQL, SQL Queries
Version Control	Git, GitHub
Tools	Jaspersoft Studio, Jasper Reports, BlazeMeter, Vite, Vercel, Excel
Testing & QA	Functional, Regression, Integration & Smoke Testing, Test Case Design, Defect Lifecycle

PROFESSIONAL EXPERIENCE

Software Engineer — Experion Infosystems Pvt. Ltd

Mar 2025 – Present

Kochi, Kerala

- Developed and maintained the React.js client application for the Mocha platform, delivering responsive, accessible, and user-friendly interfaces across student dashboards and assessment pages, and resolved 20+ UI defects covering data-display errors, layout misalignments, and visibility issues.
- Performed manual functional and regression testing of INVOQ, a DNCR (Do Not Call Registry) compliance and administration platform, validating role-based access, form validations, configurations, reporting, and administrative workflows across 18+ modules.
- Tested modules including Authentication, Dashboard, Portal & Extension User Management, Group Management, Active Directory Synchronization, CSV Import, API Key Management, DNCR Provider Management, License Management, Whitelist Management, System / Alert / Email / VDN Configuration, Application Branding, Audit Logs, and Reports.
- Documented test cases and defects in Excel, used GitHub for version control, and coordinated with backend engineers on REST API changes to ensure seamless data flow to the frontend.
- Integrated custom analytical reports with Jaspersoft Studio and SQL, and executed functional, regression, and integration testing across 10+ release cycles through the full defect lifecycle.

Software Engineer — iLearningEngines Pvt. Ltd

Jun 2023 – Feb 2025

Kochi, Kerala

- Built the Zone feature, a personalized content-delivery module in React.js, surfacing relevant learning material from user preferences and improving discoverability and engagement.

- Engineered a Workday Log Attendance Reporting System with a React.js UI and Jasper Reports, delivering real-time visual attendance dashboards for administrators.
- Enhanced cross-device responsiveness and usability using React.js, HTML5, and CSS3, including UI design improvements and theme updates.
- Authored and executed manual test cases for functional, regression, and integration testing, and resolved customer-reported issues through structured root cause analysis.
- Conducted performance testing with BlazeMeter to evaluate system behavior under load and support optimization efforts.

PROJECTS

Employee Management System

React · Node · Express · MongoDB

github.com/REETHU-JUSTIN/employee-management

- Built a full-stack MERN application to manage employee records with create, read, update, and delete (CRUD) operations, search, and a dashboard of team statistics.
- Implemented JWT-based authentication and role-based access control to secure protected routes and admin actions.
- Developed RESTful APIs with Node.js and Express.js connected to a MongoDB database, and a responsive React.js front end consuming them.

Portfolio Website

github.com/REETHU-JUSTIN/portfolio

- Designed and developed a responsive personal portfolio with React.js and React Router, featuring multi-section navigation and a mobile-first layout.
- Deployed to Vercel with source managed on GitHub, applying clean CSS and a mobile-first responsive approach for consistent rendering across devices.

EDUCATION

Bachelor of Computer Applications (BCA)

Presentation College of Applied Sciences

2019 – 2022 · CGPA 6.0 / 10

AWARDS

Rising Star Award, 2024

iLearningEngines — for outstanding performance in QA and technical support
